BETTER ME • CBT SESSION REPORT

Structured Cognitive Behavioral Reflection & Psychoeducation Summary

AI-Assisted CBT Summary
November 07, 2026

PATIENT	SESSION	DATE	ESTIMATED DURATION
saadi baba	Session #03	November 07, 2026	7 Min

1. SESSION OVERVIEW & PRESENTING CONCERNS

Presenting Situation: It’s been pretty stressful. I had to lead a project update at work on Tuesday, and my brain just went into overdrive

Physical / Somatic Signals: Face flushed / hot, Hands shaking / trembling (Patient-Reported)

2. POSSIBLE COGNITIVE PATTERNS

Identified Pattern: Fortune Telling
Supporting Dialogue Excerpt: "they feel i am incompetent and i loss the job and everyone hates me."

EDUCATIONAL NOTE

Cognitive patterns represent automated thinking habits identified through text analysis; they do not constitute a formal psychiatric diagnosis.

AUTOMATIC THOUGHT (UNEXAMINED)	BALANCED PERSPECTIVE (RESTRUCTURED)
"they feel i am incompetent and i loss the job and everyone hates me."	It is okay to make mistakes. Objective feedback confirmed: Manager provided positive feedback on clarity, No negative reactions occurred.

CBT Technique Applied: Socratic Questioning, Evidence Testing & Objective Decatastrophizing

4. PROGRESS & EMOTIONAL RATING

Distress Rating: 85 / 100

Self-reported emotional intensity during situational exploration.

5. PERSONALIZED HOMEWORK EXERCISE

Notice when 'mind-reading' or 'must be perfect' thoughts arise before speaking. Remind yourself that making mistakes is acceptable and note one objective positive fact.

6. CONTINUITY & NEXT SESSION GOALS

Review workplace confidence progress and evaluate how holding the balanced perspective supported upcoming team communication.
